

Performance Test Report

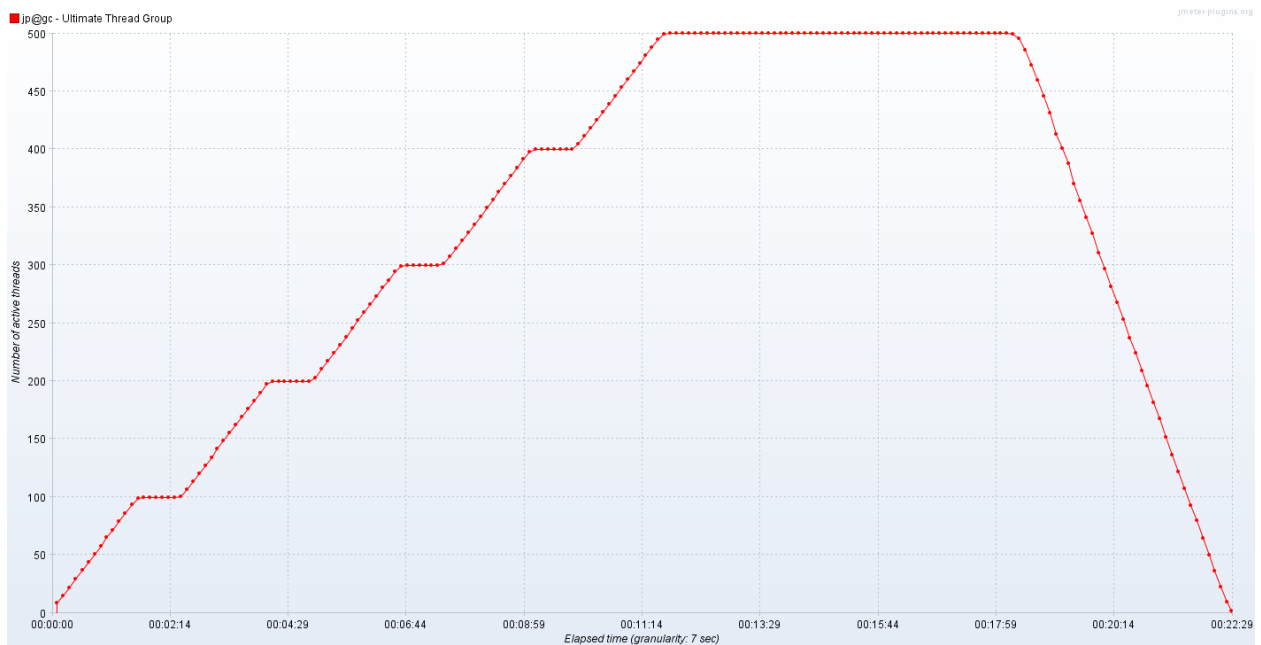

Summary :

Website's Home URL	http:// 104.211.214.143:8080/idgenerator/uin
Execution Window	2018/11/21 15:10 IST to 2017/11/21 15:32 IST
Maximum User Load	500
Tool Used	JMeter
Average Response Time	11194 ms
Throughput Achieved	23 requests per second

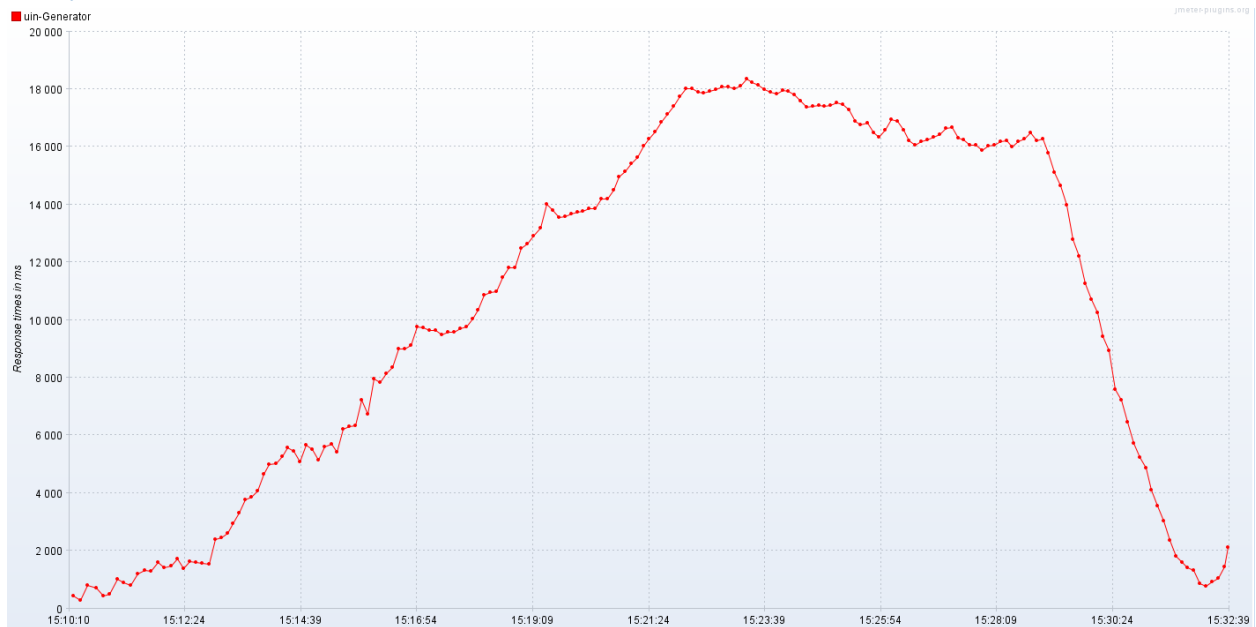

Transaction Summary :

Label	# Samples	Average	90% Line	95% Line	Min	Max	Error %	Throughput
uin-Generator	31071	11194	17680	18078	120	27505	0.00%	23.02268

Active Threads over Time:

Response Times Over Time:

Following points are inferred from the test:

- Average response time of the API has been 11.2 seconds, during the load test
- Response time continuously increases with increase in the user load
- Throughput achieved is 23.0 transactions per second
